Both units additionally maintain round-the-clock caretaking staff, security personnel, kitchen staff, trained peer educators and volunteers.

Treatment Pathway

Stage	Unit	Description
Stage 1 Detoxification	Bhankrota	Medically supervised withdrawal management. Residents are physically stabilised under 24-hour medical and nursing cover before therapeutic work begins.
Stage 2 Rehabilitation	Keshupura	Extended residential programme combining counselling, group therapy, NA meetings, peer education, yoga, skill training and structured daily routine in an open, green setting.

Stage	Unit	Description
Stage 3 Aftercare	Both units	Follow-up after discharge, continued NA participation, employment support and family support meetings to sustain recovery and prevent relapse.

Reception	Reception and admission area for enquiries and family meetings
Security	24-hour CCTV monitoring of common areas and round-the-clock security personnel
Staffing	Caretaking, nursing support and security staff present across all shifts

Services at this Unit

Service	Description
Medical Detoxification	Supervised withdrawal management with round-the-clock nursing cover and medical supervision. The first stage of treatment for anyone still using.
Psychiatric Assessment	Evaluation by a qualified psychiatrist on admission to identify co-occurring mental health conditions and establish an individual treatment plan.
Individual Counselling	One-to-one sessions with trained counsellors covering triggers, craving management, coping strategies and relapse prevention planning.
Group Therapy	Structured group sessions where residents share experience, build peer accountability and learn from others at different stages of recovery.
Narcotics Anonymous (NA)	The centre hosts on-site NA meetings following the twelve-step programme. Residents are introduced to the fellowship during treatment and linked to community meetings after discharge.
Peer Education	Sessions led by trained peer educators with lived experience of addiction and recovery.
Yoga & Meditation	Daily yoga, pranayama and meditation supporting sleep, anxiety management and physical recovery during and after withdrawal.

Service	Description
Family Counselling	Sessions for family members covering how to support recovery, set healthy boundaries and recognise early warning signs of relapse.

Unit 2 — Residential Rehabilitation Centre

Hanuman Nagar, Keshupura, Jaipur

Contact & Location

Address	Khasra No. 455, Hanuman Nagar, Keshupura, Jaipur, Rajasthan – 302021
Phone	+91 80006 13114

Facilities

Facility	Detail
Green & Open Grounds	Landscaped green space with room to walk, exercise and sit outdoors. Used for morning yoga, sports and recreation, giving residents daily time outside through a long residential stay.
Private Rooms	Air-conditioned private rooms with hot water, offering residents dignity and personal space through an extended programme
Common Hall	Dedicated indoor hall for group therapy, NA meetings, educational classes, skill training and family sessions
Yoga & Activity Space	Indoor and outdoor space set aside for daily yoga, pranayama and meditation
Recreation Grounds	Open space for sports, walking and physical activity built into the daily routine
Dining Facility	Common dining area with attached kitchen, serving prepared meals on a fixed daily schedule
Security	24-hour CCTV monitoring of common areas and grounds, with round-the-clock security personnel
Staffing	Caretaking and support staff present across all shifts

Services at this Unit

Service	Description
Psychiatric Care	Ongoing psychiatric review through the residential stay, with treatment plans adjusted as recovery progresses.
Individual Counselling	Regular one-to-one sessions covering triggers, craving management, coping strategies and relapse prevention planning.
Group Therapy	Structured group sessions in the common hall where residents share experience and build peer accountability.
Narcotics Anonymous (NA)	On-site NA meetings following the twelve-step programme. Residents are linked to community meetings before discharge so peer support continues afterwards.
Peer Education	Sessions led by trained peer educators with lived experience of addiction and recovery.
Yoga & Meditation	Daily yoga, pranayama and meditation on the open grounds.
Recreation & Fitness	Outdoor sports, walking and physical activity built into the daily routine.
Family Counselling	Sessions for family members covering how to support recovery, set healthy boundaries and recognise early warning signs of relapse.

Skill Development & Employment Support

Recovery is not complete at discharge. Sustained recovery depends on a resident having structure, income and purpose to return to. The centre therefore treats livelihood as part of treatment rather than something that happens afterwards.

Programme	Description
Skill Training	Practical skill sessions run during the residential programme, giving residents a usable trade or capability to build on after discharge.
Vocational Guidance	One-to-one guidance on identifying suitable work based on a resident's prior experience, education and physical capacity.
Employment Support	Assistance in finding work after treatment, including help preparing for interviews and connecting with employers open to hiring people in recovery.
Structured Routine	Fixed daily timetable of work, therapy, exercise and rest, rebuilding the discipline and routine that regular employment requires.
Aftercare Linkage	Continued contact after discharge, combining employment follow-up with NA participation and family support.
